This action is responsive to the communication filed January 11, 2005.

The following is an examiner's statement of reasons for allowance: the claim recitations of "semiconductor processing reactive precursor" modifying "valve" are considered to be a positive limitation of the claims in view of the further recitations in the body of the claims referring back to and giving "life and breath" to such recitations. There is no suggestion in the Prior Art of a valve as recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
